

Dear Parents,

Congratulations on getting the new app of your school. Welcome to **Infinite Student**, a mobile app which enables you to receive announcements from the school, communicate with the coordinators, get daily attendance of your ward and view monthly school calendar. It also has Learn feature which allows students to practice problem sets and tests on the app for free.

We have already created your account on our system, and will send you your login credentials (username and password) via SMS. A handout containing login credentials will also be distributed to students in class.

In order to get started please install the App (mandatory) or visit the website www.infinitestudent.com and then login.

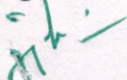

Getting Started:

1. Go to the Google Play Store (for Android devices) or App Store (for iOS devices) and install the **Infinite Student App**.
2. Login with the Username and OTP provided in the sms or login handout.
3. Reset your password to something you can remember going forward.

Questions?

In case of any queries feel free to email contact@infinitestudent.com

Regards,

Principal
